DAMJAN SAVIĆ

M.A. Software Development | A.I. Automation Specialist

Developer of AI Agents and Automation Solutions

+49 175 695 0979

info@damjan-savic.com

With a background in software development and expertise in digital transformation and system integration, I offer extensive experience in developing AI agents and automation solutions. My professional track record demonstrates my ability to lead complex digital projects from concept to successful implementation – from voice AI platforms to autonomous web agents.

SPECIALIZATION

AI AGENTS & VOICE AI

Development of production AI agents for voice, chat, and autonomous workflows. Integration of GPT-4, Claude API, and Vapi Voice AI into enterprise applications.

PROCESS AUTOMATION

Development and implementation of automation solutions using n8n, Power Automate, and Zapier. Building autonomous agents for content generation.

SYSTEM INTEGRATION

Successful integration between ERP systems, APIs, and various platforms. Middleware development for marketplace and database synchronization.

CURRENT PROJECT

RECROBOT – AI VOICE INTERVIEW PLATFORM

Development of a production voice AI platform for automated HR interviews using TypeScript/Next.js 14 and Vapi Voice AI. Originally built as a technical assessment, now deployed as a full product. Implementation of real-time speech transcription, WebSocket event handling, and conversation state management.

Live at recrobot.site. Role: AI-Manager.

POSITION

PROCESS AUTOMATION SPECIALIST

Everlast Consulting GmbH, Remote
since 12 / 2024

- Developing AI agents with n8n and Zapier
- Building web scraping solutions
- RecroBot voice interview platform

CONSULTANT DIGITAL SOLUTIONS

Ritter Digital GmbH, Remote
08 / 2023 - 11 / 2024

- Backend services on dedicated servers
- AI integration via Power Automate
- RFID/IoT solutions with Zebra hardware

DEVELOPER & E-COMMERCE MANAGER

Joyce&Girls Co AG, Remote
02 / 2023 - 08 / 2023

- Shopify with Apparel Magic integration
- Breuninger integration via TradeByte
- Middleware development with MariaDB

EDUCATION

M.A. SOFTWARE DEVELOPMENT

Middlesex University, London
09 / 2020 - 09 / 2022

Development of bots for social media

B.A. CROSS-MEDIA PRODUCTION

Middlesex University, London
09 / 2018 - 09 / 2020

Portfolio with over 40 million views

HIGH SCHOOL DIPLOMA (ABITUR)

Otto-Hahn-Gymnasium, Bergisch Gladbach
06 / 2007 - 06 / 2016

SKILLS

DEVELOPMENT

- .py, .js, .tsx
- Git, Docker, Vercel
- JetBrains, Cursor

FRONTEND

- React/Next.js
- Webflow
- Shopify

BACKEND

- SQL
- REST APIs
- Supabase

SYSTEM

- Dedicated Servers
- ERP
- Electron Apps

AUTOMATION

- GPT-4, Claude API
- Vapi Voice AI
- Power Automate
- n8n, Zapier

IOT

- RFID (Zebra)
- POS
- QR

LANGUAGES

- German (Native)
- Serbian (Native)
- English C2
- French B2
- Spanish B2

PROJECT EXPERIENCE

AI AGENTS

- RecroBot voice interview platform
- Autonomous web research agents

LOGISTICS

- RFID automation with Zebra
- Employee check-in/check-out

E-COMMERCE

- Breuninger/TradeByte middleware
- Marketplace integration via API
